

Expand Your Market With Compression

- *Do you offer compression solutions for women with lymphedema?
- *Are you certified to fit compression?
- *Do you know a physical therapist in your area who is certified?

Consider Partnering with a Therapist

Even if you are not a certified compression fitter, you can still provide a source for compression solutions to women in your area by partnering with a local physical therapist.

For assistance in locating a physical therapist in your area check out the following sites:

National Lymphedema Network – www.lymphnet.org
Lymph Notes – www.lymphnotes.com
Lymphedema Resources, Inc. – www.lymphedemaresources.org

Wear Ease has three products for you to offer women who need compression for their chest or trunk.

Sincerely,

Phyllis Keith

Compression Products

Compression Bra by Wear Ease®

- *A favorite of surgeons, therapists, and fitters
- *Designed to provide gentle compression all around the torso
- *Constructed of double layer Naturexx fabric for moisture management and **Latex Free**
- *Length that works well for women of all sizes (XXSmall - 3X)
- *Straps adjust at the shoulders with small and secure hooks
- *Discreet front zipper has a placket to protect sensitive skin.

Slimmer by Wear Ease®

The Slimmer by Wear Ease is a long camisole made for compressing the torso. The Slimmer has no fasteners, is slipped on or stepped into, has built in pockets for breast forms, and comes in three colors (white, nude, & black). Physical therapists recommend the Slimmer because it fits snug enough to hold chip pads in place and is a comfortable option for women to wear to sleep in.

*Please note if you have tried the Slimmer in the past, we have added 3" to the lengths and raised the neckline by 2" compared to our original style.

Crisscross Shaper by Wear Ease®

Our new Crisscross Shaper is exactly like the Slimmer except, unlike the Slimmer, it has a surplice bodice which allows for a fuller silhouette. Each camisole comes with a pair of removable bust cups. Currently in black only.

Both the Slimmer and Crisscross Shaper, offer a long line solution with no band, for women who need compression beyond a bra.
